

OLC#81-1111/2

16 JUN 1981

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: Acting Legislative Counsel

SUBJECT: DDCI Testimony before the House Education and Labor Subcommittee on Postsecondary Education 15 July 1981

1. Your appearance before the House Education and Labor Subcommittee on Postsecondary Education regarding language assistance legislation is now scheduled for 0900 hours, 15 July, in Room 2261 of the Rayburn House Office Building. The attached statement, which was prepared by a member of my Office, has been fully coordinated with appropriate components of the Agency and with the Director of the Intelligence Community Staff.

2. Following our discussions with OMB representatives and yourself regarding OMB's concern that you not take a specific position on H.R. 3231, this statement has been revised since you last saw it earlier this month, deleting direct support of the Bill but encouraging decisive action on the Federal level to improve foreign language capabilities in the U.S.

3. Also attached are talking points for your oral presentation and a copy of the testimony that will be presented by Paul Boeker, the Director of the Foreign Service Institute. Major General Larkin of DIA is also scheduled to testify at the 15 July hearing. When his testimony or that of any other principals (as yet unknown) becomes available, a copy will be forwarded to you. At this time, there is no final witness list. A package of other relevant background material, including possible Q's and A's, is currently being prepared and will be forwarded to you as the hearing draws closer.

4. Once you have reviewed the attached statement and approved it in final form, we will forward a copy to OMB.
